

# ÖRNEKTİR! KENDİ DURUMUNUZA GÖRE YENİDEN YAZINIZ LÜTFEN!

## Letter of Intend

I am writing to apply for the Erasmus program for the 2010-2011 academic year. I am currently studying at the Kilis 7 Aralık University in The Economics & Administrative Sciences in Management Department in the 4th semester.

One of the main reasons I would like to study abroad is that this program would enable me to study administrative science courses in a different country and to make reference and comparison of industrial and marketing opportunities in my country and in a foreign country.

Another reason is to learn a new language by immersing myself in the daily life of the country to achieve an international and intercultural education especially in a non-English speaking country like Germany. I believe that there is no better language learning environment than the country itself, and that speaking another language is essential to work in different countries.

Living and studying abroad have benefits that I cannot achieve by a short visit alone. It will allow me to broaden my perspective and contribute to my self-improvement by expanding my knowledge and widening my experience in a variety of academic disciplines.

Thanks you for your attention

Yours faithfully,

ÖRNEK
