Kilis 7 Aralık University:
From Frontier City, to Bright Future...

Turkey

A country of sun and history, Turkey is located where the three continents making up the old world, Asia, Africa and Europe are closest to each other and straddle the point where Europe and Asia meet.

Because of its geographical location, the mainland, Anatolia, has witnessed the mass migration of diverse peoples shaping the course of history. The home to countless civilizations, Anatolia has developed a unique synthesis of cultures, each with its own distinct identity, yet each linked to its predecessors through insoluble treads. As an ancient land and modern nation; Turkey today is both the inheritor and conservator of the common heritage of mankind.

Geography

Turkey is 814.578 sq. km in area. The European and Asian regions are separated by the İstanbul Boğazı (Bosphorus), the Sea of Marmara, and the Çanakkale Boğazı (Dardanelles). Anatolia is a high plateau rising progressively towards the east, broken up by the valleys of about 15 rivers, including the Dicle (Tigris) and the Fırat (Euphrates). There are numerous lakes and some, such as Lake Van, are as large as inland seas. In the south, the Taurus Mountains sweep down almost to the narrow, fertile coastal plain. Turkey enjoys a variety of ranging from the temperature climate of the Black Sea region, to the continental climate of the interior, then, to the Mediterranean climate of the Aegean and Mediterranean coastal regions. The coastline touching the four seas that total border length of Turkey is 8333 km.

History

Turkey has been called "the cradle of civilization" and by travelling through this historic land, tourists will discover exactly what is meant by this phrase. The world's first known settlement, a Neolithic city at Çatalhöyük, dates back to 6.500 BC. From the days of Çatalhöyük up to the present, Turkey boasts a rich culture that through the centuries has made a lasting impression on modern civilization. Being the heir to many centuries and cultures makes Turkey a paradise of information and cultural wealth. Hattis, Hittites, Phrygians, Urartians, Lycians, Ionians, Lydians, Persians, Macedonians, Romans, Byzantines, Seljuks, and Ottomans have all made im-

portant contributions to the history of the area. Ancient sites and ruins scattered throughout the country give sufficient proof of each civilization's unique distinction.

Turkey also has a very fascinating recent history. Upon the decline of the Ottoman Empire, a young man named Mustafa Kemal, who was a soldier and a great visionary, took the defeat of World War I and turned it into a shining victory by liberating Turkey on October 29, 1923. He led his country towards peace and stability that brought about tremendous economic growth and increasing modernization. Through decades of change and growth, Turkey still boasts growing success, living by Ataturk's motto of "Peace at home, Peace in the World."

Population

On the general basis, the population in Turkey is characterized by youth and dynamism. According to a 1997 population census, Turkey has 62.6 million inhabitants. Although there has been a marked migration into town, approximately 47 percent of the population still lives in the rural areas. Although the official language is Turkish, English is widely spoken in Turkey. There are many high schools and universities where the curriculum is based on English, German, and French, which are other commonly spoken foreign languages. Istanbul, which was the capital of three empires, is Turkey's largest city, with approximately 15 million inhabitants. Ankara, the capital city, has 3.69 million inhabitants. The next largest cities are Izmir, Bursa, Antalya, Konya, Gaziantep, and Adana.

Language

The Turkish language belongs to the Ural - Altaic group and has an affinity with the Finno -Hungarian languages. Turkish is written in the Latin alphabet and is spoken by at least 150 million people around the world.

Political Structure

The republic of Turkey is based on a secular, democratic, pluralistic, and parliamentary system. The Grand National Assembly is elected by popular vote and the nation is governed by the Council of Ministers headed by the Prime Minister. Turkey is a founding member of OECD, the Black Sea Economic Co-operation Organization, a member of NATO, the European Council, the Islamic Conference Association, and an associate member of the European Union.

Turkish Culture

The Anatolian culture bears the wisdom of one who has been molded by the peaceful exuberance that comes from living by the sea and also being close to the soil. Turkey, the inheritor of Anatolian culture, invites humanity to build a sustainable cultural partnership.

The civilizations and cultures that have existed in Anatolia over the centuries, the Byzantines, the Seljuks, and the Ottomans, have combined to form a rich synthesis. The creativity that ranges from gastronomy to music, from philosophy to literature and fine arts, from legends to modern art, is the unique characteristic of Anatolia and Turkey.

The cultural wealth of Anatolia is a peaceful friendly song, rising towards the sky as it calls humanity to tolerance and harmony.

Turkish Cuisine

Regarded as one of the three most favorable cuisines of the world, Turkish cuisine has superiority when compared to the cuisine of France and China. Exceptional richness of the various meals, methods of cooking, arrangement of the table, service, and equipments used bring the richness in a way that never fails to delight.

Kilis at Glance

History

There is evidence of human occupation from 4,000 years ago, in the Middle Bronze Age. The region has been ruled by the Hurrians, the Assyrian Empire, the Hittite Empire, the Persian Empire, the Macedonian Empire, the Roman Empire (including the Byzantine Empire), the Armenian Kingdom and finally by Ottoman Empire. Places of historical interest include a number of burial mounds, castles, and mosques.

The name of Kilis is thought to be originating from two possible sources. First one the Arabic word for lime which is "Kil'seh", was shortened and became Kilis. The reason is that the soil of Kilis contains high levels of lime. Second possible source is Turkish word for church, which is "Kilise." Around 16th century Armenian pilgrims who traveled to St. Hovhannes Monastery in Kilis, caught the attention of nearby Turkish villagers. When Turks asked Armenians where they were traveling, they replied "Kiliseye gidiyoruz, Kiliseden dönüyoruz"; translates "We are traveling back and forth to church".

Geography

Kilis is located in the southern foothills of the Taurus Mountains in the west of the Euphrates River in the northern edge of the Syria Plain. The district contains areas of good agricultural land, watered by small rivers and 68% of the land area of Kilis is planted. Almost 4% of Turkey's grape production comes from Kilis. Other important agricultural products are olives, fruit, wheat, barley, and tobacco.

Places to Visit

Ravanda Castle is near to the Ravanda Village of Polateli province, 24 km far from city center, and located on the north of Kilis. Its environment is clear and constructed on a steep hill of a mountain, which is reigning to the horizon. Remaining part of the castle, constructed via engraving of the peak of the mountain, is the internal castle.

Oylum Tumulus is one of the biggest tumuli in Anatolia, Syria, and Mesopotamia. Strategic position holding tumulus is settled during nearly all ages. Excavations performed on

Oylum Tumulus shows definite settlement dating back to Chalcolithic Age. There are lots of tumuli other than Oylum that are waiting to be excavated.

Akpınar is a promenade in which clear waters are flowing in the middle of a land with limestone. It is surrounded by olive groves, vineyards, and orchards, and this unique nature beauty covered by grass land, which is full of picnickers during spring and summer months.

Söğütlüdere, where streams coming from north slopes, is another place used for entertainment and picnicking by the people of Kilis during spring and summer time

What to Eat

Traditional culture reflecting regional meals are highly impressive with their tastes and appearances. Kebab sorts, unique to Kilis, are served freshly with special spices. Health Care at Kilis 7 Aralık University

Center for Medico-Social Unit is on the ground floor of Sosyal-Kültürel Merkez building on main campus. In the unit, basic health services are provided for students such as Glucose and Blood pressure measurement. It also provides first aid services for all students at Kilis 7 Aralık University. Complicated issues are directed to Kilis Hospital close the campus.

Medical Insurance

All exchange students should possess current and up to date medical insurance before arrival. International students with a private medical insurance need to confirm that their insurance covers the expenses that may occur during their stay in Turkey.

Make sure you have emergency/hospital coverage by getting a health insurance policy valid in Turkey before coming. Kilis 7 Aralık University is not responsible from the students who arrive without a proper Health Insurance.

More info From

http://www.studyinturkey.com/content/sub/health_and_insurance.aspx

International students are responsible for costs of hospitalization or for any medical service or treatment not available at university health centers. The Health Insurance Policy should cover both Asiatic and European Turkey. Some of the international insurance services are as follows:

- AXA PPP Healthcare : www.axapphealthcare.co.uk
- BUPA : www.bupa-intl.com
- ExpaCare Insurance Services : www.expacare.net

All students holding a Turkish Residency Permit of more than 6 months will automatically be registered at the Turkish Social Security Institution through the centralized system. At a national level however, the Turkish Government requires that all international students get a mandatory local health insurance policy with the Turkish Social Security Institution (SGK) to enable them to benefit health insurance while in Turkey. Students are responsible for their own monthly payments of health insurance contributions.

The insurance will be valid until the end of the academic year. In order to activate the medical insurance, students should go the local health authority with:

- Resident Permit
- Passport
- Student ID Students usually receive an SGK number upon the registration at the health authority.

Medical insurance allows you to buy your medicine by paying 20% of the total amount prescribed by the doctor. There are many state and private hospitals in Turkey. The cost that you are going to pay depends on the pricing policy of each hospital. Some of the hospitals work under complete agreements with SGK insurance and some of them require extra costs which are not covered by the SGK insurance.

The International Relations Office can help you in setting up the process.

Besides, private policies can be bought from banks or from specialized insurance offices. You may arrange your private health insurance through the following insurance companies. The main insurance companies have branches in all the big towns.
